Vanessa Dinning

Voice & Vocal Health, Dialects,
Music Theory, Beginner Cello,
Beginner Piano

Vanessa is very active in the San Diego Theatre & Music Communities and enjoys regular work with San Diego Musical Theatre, Moonlight Stage Productions and Cygnet Theatre. She's originally from England and is very fond of kittens.

Imagine trying to play a piano if you can't read music... or a guitar, if the strings are out of tune and you don't know where to put your fingers. The voice needs just as much attention. With a healthy and free voice anything is possible. With Vanessa, you will learn the elements of healthy and musical singing. We'll work on posture, relaxation, breath control and support, tuning, listening, harmony singing, repertoire, reading, text clarity and meaningful performance - in a relaxed and supportive atmosphere. Together we'll build excellent technique, integrated with your natural musicality and expression. Above all, Vanessa hopes to develop your love of music, singing and voice, so that you find it as exhilarating and fun as she does and so you'll look forward to new adventures in every session!

Vanessa is in demand as an actor, director, singer, and voice and accent coach. She has taught classes and led workshops at drama schools in the UK and San Diego and works with professional actors, TV presenters and singers to help develop strong and healthy voices, projection and confidence.
